PHILOSOPHY STATEMENT

The athletic programs administered by the Catholic Diocese of Memphis are based on the premise that young adolescents between the ages of 10 and 15 have special spiritual, intellectual, emotional, social and physical needs, which are best met in an environment, which is distinct from not only elementary school but also high school athletic programs. The Parochial Athletic Association (PAA) offers to its participants a sense of belonging and creates a climate resulting in young people who work toward developing strengths and improving weaknesses. This atmosphere allows young adolescents to experience positive growth and development now and in the future. Athletic programs, which are based on the teachings of Christ and rooted in the teaching of His Church, provide avenues for learning which foster positive attitudes about self and others. The PAA also offers athletic programs for the younger children (school age – grade 4) a league that offers soccer, basketball, baseball and softball – this league is known as the Charlie Brown/Lucy League (CBLL).

Within the five principal areas of maturation typifying the young adolescent years: spiritual, intellectual, emotional, social and physical, administrators and coaches of PAA programs work harmoniously with church/school leaders and teachers and utilize a variety of instructional techniques. The instructional aspects of PAA programs are participant-centered and specifically geared to meet individual player needs. No interested adolescent is “cut” from a team, i.e. denied participation on a church/school-sponsored team in a PAA league. Furthermore, all PAA programs and related activities receive equal planning and support. The respect for the human dignity of each participant is at the forefront of all decision-making.

The PAA programs are the instruments by which young adolescents develop the fundamental skills and basic strategies of the games or activities in which they participate. During the ages of 10 and 15, adolescents want to explore all extra-curricular possibilities in order to determine which ones they are most interested in and most proficient in. Winning should not be the primary goal of PAA athletics. Winning is less important than preparing the athlete to win. Young adolescent athletes should be rewarded for personal bests and positive efforts, regardless of game outcomes. If the emphasis on winning or being the best is introduced too early or too strongly, the emotional balance of this age group is upset. Administrators and coaches in the PAA must have an understanding of adolescent development phases, enjoy working and having fun with youngsters, and respect the uniqueness of each of their charges. Likewise, administrators and coaches in the PAA must be committed to enhancing the growth and development of players, to offering specialized and proper instruction, and to working as a part of the church/school athletic programs teams. They must foster trust, dignity, consistency, fairness, and add a degree of humor to their endeavors.

The CBLL league is structured in such a way that all players who are eligible should receive equal playing time in each game. Scores are kept but the emphasis is not on winning but is on learning the basic fundamentals of the game, sportsmanship and the advantages of being a member of a team. League standings are not kept in this league and there are no team awards presented.

GOALS OF THE PAA/CBLL

Spiritual

- To appreciate and actively support the inherent ties between church, school, and the sponsored activities.
- To embrace the challenge of working for the development of a personal relationship with Christ for each participant.

Intellectual

- To utilize and foster the development of proper communication skills, diverse teaching strategies, and necessary game skills.

Emotional

- To provide opportunities for each adolescent participant to explore his/her identity, values and abilities.

Social

- To model respect for human dignity.
- To promote the ideals of sportsmanship.
- To ensure the development of teamwork.

Physical

- To acquire a keen understanding of adolescent development & adolescent needs.
- To accept responsibility for guiding children through subsequent emotional changes associated with physical development.
- To hold the bodily safety of each participant, as previously identified, in the highest regard.

THE ROLE OF SPORTS IN CATHOLIC SCHOOLS

Catholic schools are excellent because they are holistic in nature, i.e. they educate the whole person. In addition to the spiritual and intellectual dimensions, there is a need for the physical development of each student.

Pope John Paul II, an avid sportsman himself, believes that “sports can and must contribute to the integral development of the human person.”

Catholic elementary schools in the Diocese of Memphis support sports programs as part of their ministry to their students. Sports promote good health, strong self-esteem, loyalty, fair play, generosity, friendship, cooperation and other positive values.

First and foremost, in the minds and hearts of all those involved in Catholic school sports programs should be the interest of the young people under their care. Every effort should be made to place competitive sports in a Christian perspective. The desire to win at all costs should be discouraged. Violence on the field, poor sportsmanship, excessive negative reinforcement, and other such inappropriate behavior should be eliminated. The emphasis should be on insuring positive reinforcement, skill development, teamwork and good sportsmanship.

It is the goal of the Board of Directors to ensure that the sports programs reflect the highest principles and teachings of the Catholic Church.

Enrollment Requirements

Section 1: To be eligible to participate in athletic contests or activities during the year, the student shall be enrolled full time at a member school or be a member of the parish/church, enrolled in and regularly attend a religion education program sponsored by the member institution prior to the start of each school year. No student shall be required to submit to a physical exam if his/her parent(s) or legal guardian shall file with the principal a signed, written statement (affirmed under the penalties of perjury) declining such physical examination on grounds of sincerely held beliefs or practices. It is

required that no student be permitted to participate in practice sessions or in athletic contests until there is on file a parental consent certificate signed by a parent or legal guardian stating that the student has the consent of his/her parent(s) or legal guardian to participate.

Concussion and Sudden Cardiac Arrest Awareness

Section 3: It is required that no student be permitted to participate in tryouts, practices, or events until there is on file with the administrator of the student's athletic program a copy of the TN Concussion Awareness and Sudden Cardiac Arrest Awareness forms complete and signed by the student and the student's parents/guardians.

Age Requirements

Section 4: No student who has reached the maximum age by grade level on or before September 1 of the current school year is eligible to participate. The age by grade maximums shall be:

Grade 1 – 8 years old	Grade 5 – 12 years old
Grade 2 – 9 years old	Grade 6 – 13 years old
Grade 3 – 10 years old	Grade 7 – 14 years old
Grade 4 – 11 years old	Grade 8 – 15 years old

(*refer to section 12 for information on filing a hardship/appeal in certain cases)

Academic Requirements

Section 5: Students who are retained (for non-athletic reasons) are eligible for participation if the following requirements are met: If a child is a member of a PAA school and the school recommends he/she repeat a grade that the Principal can grant an exception to the rule and allow the child to participate as long as the child is still within the age guidelines for the grade. (If principal is convinced that retention is for the best interest of the child academically and in no way athletically related.) The Principal would need to submit in writing to the Superintendent a letter stating the pertinent information related to the student they are granting the exception to. If a child is not a member of a PAA school and transfers in for the year they are repeating – this automatic exception is not an option.

TSSAA Requirements for Repeating a Grade

Section 6: A student who repeats the sixth, seventh, or eighth grade and participates in school athletics while repeating shall be ineligible in all sports at all levels in the ninth grade per TSSAA regulations.

Eligible Players

Section 7: An eligibility list containing the name of each student who is to participate during the season in each sport shall be filed by the member institution's administration with the Board of Directors prior to the published deadline. An eligibility list shall be filed for each team in each division in any sport. If a student whose name does not appear on the original team eligibility form wishes to join the team, an additional eligibility form listing the added student must be filed with the Board of Directors prior to the athlete's participation. (this form can be sent via email as an EXCEL spreadsheet – it should include school info, team info, coach info and the names/grades of all participants on that team as well as a notation from Principal/Pastor that all eligibility requirements have been met for all players and coaches).

Ineligible Players

Section 8: A student in grade 8 who participates in a varsity or B-team sport with his/her high school team is not eligible for the institution's PAA team in the same sport. The student is eligible for participation in other sports sponsored by the PAA.

Section 9: A student that participates in an outreach program with the church for purposes of sports participation is not eligible for participation in sports programs offered by the PAA.

School Transfer

Section 10: No student with an athletic record during a school year who transfers from one member institution to another without a corresponding change of address of parents/guardians shall be eligible for participation in sports for the remainder of the school year.

Cooperative Student

Section 11: A student who attends a member institution is allowed to play for another member institution only when the member institution he/she is a member does not offer the sport. The student must play for the chosen school for the duration of their grade school years. Example: A member of OLPH desires to play football. Player chooses to play for Holy Rosary. Player is eligible to play for Holy Rosary but must play for Holy Rosary until he graduates from 8th grade. Exception would be if OLPH should decide to start a team, the player would then have to play for his member institution.

Eligibility Violations

Section 12: Accidental, intentional, or other use of ineligible players by member institutions shall require that a team's victories in which the ineligible player(s) participates be forfeited. Repeated instances of the use of ineligible players by the same institution can require the suspension of the institution from participation in the PAA and/or monetary fines.

Section 13: No part of these eligibility rules shall be set aside by mutual agreement for any contest or event whatsoever, nor shall they be supplemented in any contest or event held.

Hardship Requests

Section 14: The Diocesan Athletic Director, or the Board of Directors and the Board of Control shall have the authority to set aside the effect of any eligibility rules upon an individual student when in their opinion the rule fails to accomplish the purpose for which it is intended, or when the rule works an undue hardship on the student.

Requests for a review of the student's status should be made in writing to the Board of Directors. It is recommended that hardship application letters filed with the Board of Directors list the eligibility rule for which the institution is requesting an exception and the reasons for the request.

These requests will be reviewed by the Board of Control, and the Board of Directors. A ruling by this group will be made with the best interest of ALL involved. See Index for examples of hardship requests.

Article VII: General Contest or Event Rules

Section 1: In general, the official rule books as published by the National Federation of State High School Associations (NFHS) shall be used in PAA sponsored sports. Additional rules/requirements for individual sports shall be found in the individual sports section of this handbook.

Section 2: The PAA's member institutions shall adhere to the published Sports Calendar. The sport season for any team shall end when the team has been eliminated from the PAA tournament if one is offered or played their last PAA game if a tournament is not offered.

Tournaments

Section 3: Participation in the PAA jamboree does not count as a regular season contest; however, team eligibility lists should be filed with the Board of Directors prior to participation. If the PAA does sponsor a jamboree all teams participating in the league are expected to participate.

Section 4: Participation in any PAA sanctioned invitational tournament or any tournament before or during league play shall count as two games for purposes of reconciling game limits by sport for the PAA Sports Calendar.

It is recommended that all member institutions notify the Board of Directors of any tournament that will be sponsored by the member institution during the season. League games may NOT be rescheduled to accommodate a tournament schedule.

Practice Games during League Play

Section 5: No practice games, combined practices, or controlled scrimmages shall be played after a team plays its first PAA contest.

Cooperative Players

Section 6: If member institutions do not have enough students to field a team and wish to join with another institution to form a team, the Diocesan Athletic Director's office must receive written notification from both institutions with the appropriate administrator's signature prior to the deadline for eligibility forms.

Maximum Weekly Practices

Section 7: Sports teams, cheerleading squads, and other event participants shall not exceed a maximum of eight hours of games, practices, or related activities in any week. No practice session shall exceed two hours in length. A game shall count as one and one-half hours. The maximum numbers of game sessions and/or practices sessions shall not exceed five per week.

Section 8: The head coach or a designated representative (submitted in writing to Diocesan Athletic Director's office prior to meeting) must attend the PAA rules meeting for each sport. Penalty for violation of this rule shall be a fine of \$25.00. Athletic Director and assistant coaches are also welcomed to attend.

Coaching Expectations

Section 9: PAA coaches must always set a proper example and maintain a professional attitude toward student athletes, other coaches, and game officials. Furthermore, coaches must be living a lifestyle consistent with the basic beliefs of the Church and be an active member of their own church, regularly attending worship services.

PAA coaches shall display good sportsmanship, always maintaining poise and control of themselves and their players. Coaches shall publicly shake hands with opposing coaches before and after each contest. Coaches shall also help the institution's administrators control the behavior of parents and fans during events.

Section 10: The game officials shall have the authority to use as a penalty the forfeiture of contests as sanctions against the flagrant misconduct of coaches or spectators. The flagrant misconduct of players or coaches shall be penalized by the player's /coach's ejection from the game and a suspension that will follow.

In the event that any of these situations occur, the game officials shall report in writing to their Coordinator who will in turn report to the Board of Directors.

It is asked that each member institution report to the Board of Directors all situations involving an expulsion of a player, coach, or spectator. Player and/or coach involved are ineligible for further participation until the proper procedures have been followed and a clearance issued from the Board of Directors.

Section 11: The use of alcohol, tobacco in any form, or profanity by coaches, officials, spectators, or athletes is prohibited at PAA events.

Section 12: The coaches of member institutions should review the PAA handbook each year.

Section 13: It is the responsibility of each coach to complete an officials' rating form provided by the different official's organization after each contest. This will help all involved to make sure we are providing our student athletes with the best officiating possible. Forms should be returned to athletic director and then in turn forwarded to the respective head of the officials' association.

Event Control

Section 14: Member institutions shall require the presence of, at least, one administrator or designated representative at PAA events to help with crowd control and to intervene on behalf of student participants whose coach may be unable to remain at the event until its conclusion. This person should introduce himself/herself to the opposing coach upon the opposing team's arrival at the host site. In the event an administrator is not on hand, the head coach will assume these responsibilities.

Section 15: It is asked that all PAA events begin with a prayer involving both teams. Prayer cards are available from the Catholic School Office.

Section 16: Member institutions shall not only be responsible for outfitting sponsored teams in proper uniforms, but

shall also provide coaching attire, which identifies coaches.

Section 17: The coaches of member institutions are responsible for promulgating and enforcing PAA sport rules beyond those listed in NFHS rulebooks.

Section 18: The coaches of member institutions shall be responsible for not allowing large scoring differentials to exist during PAA contests. They shall adhere to the specific rules listed for each sport for the purposes of holding down runaway scoring.

Event Admission Fees

Section 19: Member institutions may not charge more than **\$5.00** to any adult up to age 65, \$2.00 for sr. adults (65 and older), and **\$2.00** to any student (grades 1 – 12) as an admission fee to PAA events.

Game officials shall be paid their fees as set by individual sport's rules from the gate receipts of the event's host no later than half time of the session's final contest. If school policy mandates the use of vouchers, vouchers must be signed before the event begins, and voucher should be processed the next school day following the event.

Section 20: Member institutions shall extend the highest forms of hospitality to visiting teams and their fans. All PAA contests shall end with the individual handshake greeting of each visiting event participant by each host participant.

Section 21: Member institutions shall provide to game officials private, secure areas in which to change, rest between sessions, and store valuables. Officials are not to be approached by coaches, players, or spectators after the event for any reason. Any problems with the officials should be reported to the head of the specific officials' association and to the Board of Directors.

Section 22: Member institutions shall be responsible from time to time for supplying knowledgeable persons, preferably adults; to assist game officials with various event related duties.

Forfeited Games

Section 23: Whenever teams from member institutions forfeit contests to opponents, the forfeiting team shall be responsible for reimbursing the opponent for the game officials' fees and also subject to a \$50 fine from the league office.

Repeated forfeitures on the part of member teams shall require additional sanctions from the Board of Control.

Member institutions shall have in place solid criteria for establishing teams so that teams do not drop out of leagues after schedules have been finalized. Member institutions may be liable to pay forfeit fees for the team's schedule.

Players participating on Multiple Teams

Section 24: If a member institution enters more than one team in a sport, players may not change teams. A player must participate with the team that his/her name appears on the eligibility form submitted prior to the beginning of the season.

Rosters

Section 25: An official roster must be submitted by the league mandated deadline. Players may be added after rosters are submitted, but before the player participates in any manner – a revised roster should be submitted to the league office as well as necessary fees. The name of the new player must be highlighted/noted and all required signatures must be on the roster (coach, athletic director, pastor or principal).

Player will become "eligible" after athletic director contacts the League Office to confirm receipt of roster (and payment if required).

Section 26: Member institutions should host a parent meeting prior to the beginning of each season. Policies, procedures, and expectations should be covered at this time.

Protests

Section 27: The Athletic Director must submit Protests to the Board of Directors in writing. All protests must be accompanied by a \$25 fee, which will be returned if the protest is upheld. Protesting coach must notify official and opposing coach at the point of his intention to protest. No protests are allowed on judgment plays by officials. Games may be protested within three days of contest. Player eligibility may be protested until the end of the season. A decision will be rendered within 48 hours of the Board of Control meeting.

Complaints may also be filed – there is no charge for filing a complaint, but it must be submitted in writing to the PAA Compliance Officer.

Hosting Tournaments

Section 28: Schools hosting end of the season tournaments sponsored by the PAA should submit a financial statement upon completion of the tournament. Twenty percent of gate receipts (after paying official's fees) should be forwarded to the Board of Directors within 5 business days of the last tournament event. It is requested that a check be submitted, payable to the Parochial Athletic Association.

Game Cancellations / Rescheduling

Section 29: Cancellations/rescheduling of games are restricted to the week prior to league play. All changes should be forwarded in writing to the Board of Directors as well as the proper official's organization, emergency personnel, opponent, and any other game personnel. Once league play has begun, cancellations will only be made for inclement weather. If the Catholic Schools are closed because of inclement weather, all PAA events are also cancelled. Scheduling requests should be submitted at the time the eligibility form is due. In emergency situations, all rescheduled events should be scheduled and completed within seven days of original date.

Section 30: It is recommended that male teams always have a male chaperone present with the team at all games and practices and all female teams always have a female chaperone present with the team at all games and practices.

Section 31: It is the responsibility of the Athletic Director from member institutions to file the end of season summary sheet and also to attend a seeding meeting for the tournament if one is held. Failure to submit the summary form or attend the seeding meeting can result in withdrawal from tournament.

Section 32: It is asked that an accident form be completed when needed and a copy forwarded to the Board of Directors.

Fair Team Creation

Section 33: Athletic directors, when placing multiple teams in any same program division, shall form teams such that they are divided equally for age and talent. Member organizations may not create an "A" and "B" team competing in the same division with any notable player disparity. For example: if a member organization was creating 2 teams combined from 7th and 8th grade boys to compete in Basketball, the member organization must split the team with an equal number of 7th graders on both teams. Talent must be assessed so that teams are as fairly balanced as reasonably possible.

Player Equal Play Time

Section 34: 50% or equal playing time rule: Grades 1 – 4 mandates 50% or equal playing time for all participants in each game that they are eligible to play in. It is a local decision as to eligibility to play in each game (this is separate from player eligibility based on handbook) – player "game" eligibility should be communicated to all parents/players prior to the season (preferably at the pre-season meeting). The intent of this rule is for all children to receive equal playing time at each game – it is not the intent that the better or older players play all of the game and the younger or lesser skilled players "split" the remainder of the game to play 50%. In 5/6 instructional basketball league – there is a 1 continuous quarter rule. Please refer to individual rules for each sport for specifics.

Grades 5-8 mandates that the minimum number of players on a team be present at the start time of an event. Grades 1-4 are informative in nature and will play with less than required. The opposing team may elect to provide extra players to temporarily assist the opponent's team. The intent is to allow development of all players.

Certain sports may restrict the maximum number of players on a team to control playing time. In addition, the PAA may develop a substitution pattern to aid coaches and teams with control of this rule. **Extra-League Play**
Section 35: Teams are not allowed to participate in another league during the same sport season. Individual games may be added, but they cannot conflict with a regularly scheduled league game or put a team over the maximum number of contests allowed.

Coach Requirements

Section 36: All PAA Coaches, Assistant coaches are required to complete, free of charge, the CDC “Heads Up Concussion in Youth Sports” online program or the NFHS online “Concussion in Sports” course each year. All PAA Coaches, Assistant coaches are also required to complete, free of charge, the NFHS online “Sudden Cardiac Arrest” course each year. Upon completion of the course, it is responsibility of coach to submit the completion certificates to their Athletic Director.

All PAA Coaches must have completed the Protecting God’s Children, “VIRTUS”, course and provide proof to Athletic Director as well as submit to a criminal background check. It is the responsibility of the Athletic Director to maintain compliance with these requirements. Schools and churches who are not in the Catholic Diocese of Memphis, can submit their diocesan/church requirements for approval as a substitute for the Protecting God’s Children and background check policy.

STUDENT SPORT PARTICIPATION POLICY

Every effort should be made so that every child is given the opportunity to participate in some portion of every competition. A good coach is able to devise a strategy to ensure that every young person under his or her care gets an opportunity to play.

Because children develop differently, their ability to acquire the skills necessary to perform well in any sport will vary widely. Coaches must keep them interested, committed, content and confident. Too many children have such a bad experience with sports programs that they quit early in life, never having the chance to meet their full potential.

Sports in the Catholic school system strive to further the mission statement of our schools:

The Catholic schools in the Diocese of Memphis, in accordance with the teachings of the Roman Catholic Church, are committed to quality education, in an environment of spiritual, intellectual and moral formation, in which faith, culture and life are brought into harmony.

SELECTION OF COACHES

The initial selection of coaches is vital if an athletic program is to reflect Christian values. A coach should not be selected purely for his/her knowledge of sports, but rather as a potential youth minister who will reflect and model the Gospel values that should be incorporated into the athletic program.

The Head Coach of each team will be held responsible for all actions of assistant coaches, game personnel and fans/spectators. In the absence of a game administrator, the head coach will have to assume those responsibilities.

Criteria for selection of coaches must include:

- Model Christian
- Emotionally stable & responsible
- Interested in working with young people in order to build their confidence, while being sensitive to their differences
- Knowledge of sport and skills necessary to be successful
- Knowledge of PAA rules and regulations
- Approval of the Pastor, and/or Principal
- Criminal background check on file at Diocesan Office (or member organization's administrative office if not associated with the Catholic Diocese of Memphis).
- [VIRTUS® training completed](#)
- Completed Concussion and Sudden Cardiac Arrest Awareness Certification.

It is recommended that at least one coach of each team be currently certified in CPR and First Aid.

A Good Coach

- Understands the rules and instructs his/her players accordingly
- Controls his/her emotions
- Knows when and who to substitute
- Speaks in a manner and tone appropriate for his/her position
- Realizes players never purposely make mistakes and never ridicules

- Concentrates on coaching and lets the officials call the game
- Is fair and does not show favoritism
- Sets realistic practice and game schedules
- Never permits an ill or injured player to practice or play
- Insists that a team practice with the same enthusiasm and skill as demonstrated during a scheduled game
- Uses ALL players in practice and in games
- Never deliberately humiliates an opponent by pushing up the score
- Insists that players accept victory with modesty and defeat without alibi.
- Does not review a game immediately after the final whistle when emotions are high, but saves detailed comments for the next practice
- Realizes a team's reputation is built not only on its playing ability, but also on its sportsmanship, courtesy, and manner.

Catholic School Coach's Pledge

Upon my honor as a Catholic school coach, I pledge myself to the following:

- ***To guide each player to be a better Christian & better citizen;***
- ***To be ethical and sportsmanlike in my coaching conduct toward all players, officials, fans, and other coaches;***
- ***To motivate each player to compete according to the rules at all times;***
- ***To teach each player, especially through my own example, to be humble and generous in victory and proud and courteous in defeat***

CODE OF CONDUCT

Code of Conduct for Coaches & Players

No coach or player is to:

1. Refuse to abide by official's decision or use profane language or gestures.
2. Exhibit objectionable behavior (i.e. throwing equipment or any other forceful action)
3. Verbally abuse an official for any real or imagined unjust decision or judgment, or verbally abuse a player, opposing coach, or spectator
4. Physically touch, push, shove, strike or threaten to strike a player, official, coach or spectator.

The head coach of the team playing will be held responsible for the conduct of all players, assistant coaches and fans from their schools at home/away contests.

The Board of Control and the Diocesan Director of Athletics in consultation with the Superintendent's office will determine penalties for any of the above infractions.

Until a decision is made on the penalty associated with unsportsmanlike behavior - any coach/player who is ejected from a contest for any reason will serve an immediate suspension from all levels of participation for that sport. Levels of suspension include game play, team practices, and attending team games as a spectator.

Any coach ejected from a contest must exit the gym or field and premises immediately following the ejection. It is the parent or guardian's responsibility to remove an ejected player from the gym/field and premises as soon as reasonably possible. If a player's parent or guardian is not available at the time of the ejection, the coach or assistant coach should take reasonable measures to remove the player from the facility to ensure the safety of the player.

In most cases, suspension will be for two games for all sports with the exception of football, soccer, golf and cross country (1 game). Suspension will be in effect until suspension time is served and all paperwork has been faxed to PAA office and approval faxed back to school. After serving one suspension, if coach/player is ejected again within the same school year, the suspension will be for one-year.

Any coach/player ejected for unsportsmanlike conduct must attend a conference before rejoining the team. At this conference – in attendance should be the Athletic Director, Principal (or Pastor if a church setting) and player/coach ejected. If it is a player – at least one parent/guardian must attend the meeting as well as the head coach of the team.

Athletic Director must provide a written statement that the conference was held; those in attendance; and the games that the coach/player/fan will sit out. Player/coach may NOT rejoin the team in any way until approval from the League Office.

The above will be enforced by the PAA office – local institutions may add to the discipline – but not take away.

Code of Conduct for Parents and Fans

Any parent or fan whose behavior is deemed objectionable (i.e. offenses similar in nature to those in the coaches and players code of conduct) by any game official, pastor, school principal or appointed person in authority at that event, should be asked to leave the premises. The pastor/principal of the school(s) involved should then make a further determination as to whether or not the individual(s) should be banned from additional games.

It is recommended that fan ejections for unsportsmanlike conduct be handled in the same manner as coach/player ejections.

The head coach will be held responsible for the actions of all assistant coaches, game personnel, players and fans/spectators.

HEALTH AND SAFETY

Children's Act for Clean Indoor Air

For health and safety reasons, smoking is not permitted at any PAA sponsored activity. In response to the "Children's Act for Clean Indoor Air" enacted as Public Chapter 455 by the Tennessee General Assembly, the act prohibits smoking at all public and private kindergarten, elementary, and secondary schools and school grounds. The term is defined in the act and includes any building, structure, and surrounding grounds. Adults may be permitted to smoke outdoors as long as they are more than fifty feet from any entrance to the building or playing field.

Heat Acclimatization and Heat Illness Prevention

Exertional Heatstroke (EHS) is the leading cause of preventable death in student athletics. Students participating in high-intensity, long-duration or repeated same-day sports practices and training activities during the summer months or other hot-weather days are at greatest risk. EHS also results in thousands of emergency room visits and hospitalizations throughout the nation each year. Further and more detailed information can be found within the NFHSLearn.com online course, the NFHS Sports Medicine Handbook, the NFHS SMAC "Position Statement and Recommendations for Maintaining Hydration to Optimize Performance and Minimize the Risk for Exertional Heat Illness" and other NFHS related programs. Following the recommended guidelines in this policy and "Heat Illness Prevention" can reduce the risk and incidence of EHS and the resulting deaths and injuries in student athletics. The PAA has adopted the TSSAA guidelines for dealing with excessive heat.

Concussion and Sudden Cardiac Arrest

Information concerning the nature, risk and symptoms of concussion and head injury and sudden cardiac arrest, should be reviewed by all school administrators, coaches, youth athletes and their parent or guardian. The Tennessee Department of Health has concussion and sudden cardiac arrest information and forms available at <http://www.tn.gov/health/article/tbi-concussion> and <http://www.tn.gov/health/topic/sudden-cardiac-arrest-prevention-act>.

The following information includes a copy of "Signs/Symptoms of Concussion". The required Centers for Disease Control and Prevention concussion checklist is available at www.cdc.gov/concussion/pdf/TBI_schools_checklist_508-a.pdf. Every individual involved in athletics at member schools or youth organizations must review information on concussions and sudden cardiac arrest annually and sign a form that states this process has been completed.

The NFHS has developed free courses online regarding concussions and sudden cardiac arrest in sports. The courses may be accessed at www.nfhslearn.com. Athletic directors and coaches, whether employed or volunteer, must complete this course annually.

Prior to the annual initiation of practice or competition the following persons must review and sign a concussion and head injury information sheet and the sudden cardiac awareness information sheet: all coaches, athletic director, and any appointed licensed health care professional of each member school.

Prior to the annual initiation of practice or competition, all student athletes and the athlete's parent/guardian should review a concussion and head injury information sheet. A form confirming this review shall be signed and returned by the student athlete, if the athlete is 18 years of age or older; or, by the athlete's parent/ guardian, for athletes younger than 18 years of age. In compliance with TN State Law, member schools must maintain this information on each student athlete for a period of no less than 3 years.

Any player who exhibits signs, symptoms or behaviors consistent with a concussion such as loss of consciousness, headache, dizziness, confusion or balance problems, shall be immediately removed from the game and shall not return to play until they have been evaluated by a licensed medical professional and received written clearance to return to sporting activities.

Any player who suffers a sudden cardiac arrest shall be immediately removed from the game and shall not return to play until they have been evaluated by a licensed medical professional and received written clearance to return to

sporting activities.

Any coach or parent insisting on returning the player to the game without approved clearance will result in the referee ending the game immediately.

Lightening Policy for Outdoor Events

To reduce the risk of lightning-related casualties, it is important to ensure that athletes, coaches and event administrators are appropriately educated regarding best practices for lightning safety. Given the variation in distance that lightning may travel and the deadly force with which it strikes, the importance of keeping athletes and spectators safe through education and appropriate event planning cannot be understated. Postponing contests or practices should be strongly considered when a thunderstorm is predicted. In the event of an unexpected or fast-moving thunderstorm, appropriate steps should be taken to remove participants from the threat of lightning. The PAA has created guidelines for the suspension and resumption of play adopted from the NFHS.

2. Signed Concussion Awareness Form
3. Signed Sudden Cardiac Arrest Form
4. Coaches must register and complete annually the NFHS concussion and cardiac arrest training.

PAA POLICY ON SCHEDULING OF EVENTS

One of the functions of the PAA office is to provide a master schedule for all PAA sanctioned events. For this to happen, the PAA office must rely on the Athletic Director to submit the following information: dates/time that the playing venue is available & unavailable; are schools allowed to play on Wednesdays and Sundays; if so the times they are available.

Events are not scheduled on Holy Days or during Thanksgiving Break, Christmas Break, MLK Day, Spring Break, Palm Sunday – Easter Monday.

Many schools/churches opt to play on Sunday afternoons because it is a non-stressful time for many families. Some schools/churches opt to not play on Sunday afternoon while some prefer to play, but not at home. Some block out Wednesday evenings because of PRE.

The PAA office does honor these requests, but we are only as good as the information we receive from the site Athletic Director. We ask that they consult with the school principal and Pastor before turning in dates that their site and teams are available/unavailable.

If any safety issues cannot be rectified at the time, the game is not to be played until those safety issues are corrected.

participating in these evaluations are not to be told which team they are on until the official practice date. These girls may not “practice” together again until after the official start of the season nor can they combine with another grade division so have another hour and ½ session this week.

- 16) When a team is entered in the instructional/combo league the following requirements must be met: School/church must have entered a team in either the large and/or small division; team entered in the instructional league must be balanced as evenly as possible (grade, talent, size, etc).
- a) The basketball for girls’ league is the same ball as is used for high school girls. The basketball for boys’ league games is the same as is used for high school boys.
 - b) League games shall be six-minute quarters. Overtime periods, if necessary shall be three minutes each.
 - c) Three-point goals are allowed for all divisions.
 - d) To control runaway scoring, a team with a 20-point lead or greater may not full-court press; a team with a 30-point lead or greater may not half-court trap or run a man-to-man defense (defense must stay within the 3-point arc). Repeated disregard of this rule can eventually result in forfeiture of the game.

17) Lassie/Peewee Division

- a) The basketball used for both boys’ and girls’ league is the same as is used for high school girls.
- b) League games shall be six-minute quarters. Overtime periods, if necessary shall be two minutes each.
- c) Three-point goals are allowed in all divisions.
- d) The foul shot line in the following divisions will be 12’ – 5th grade boys and girls, 5th & 6th grade small division boys and girls and the 5th & 6th grade COMBO boys and girls leagues.
- e) A player may elect to shoot from the 15’ line but in doing so, must shoot all shots from that penalty shot from the 15’ line for those series of free throws. Also, all rules regarding foul shots will be enforced from the 15’ line – they will not have the 3 feet area.
- f) 6th grade boys and girls league will use the regulation line (15’).
- g) To control runaway scoring, a team with a 20-point lead or greater may not full-court press; a team with a 30-point lead or greater may not half-court trap or run a man-to-man defense (defense must stay within the 3-point arc). Repeated disregard of this rule can eventually result in forfeiture of the game.
- h) The Lassie/Peewee COMBO leagues are the only leagues with a mandatory playing time requirement. Each player (dressed out) at the game is required to play one continuous full quarter of each game. Each head coach is to designate in the official scorebook the mandatory quarter in the appropriate quarter box in the scorebook. Each coach is asked to make this available to the opposing coach prior to the game. In the event a player gets hurt or fouls out during his/her mandatory quarter, and has to be removed from the game, that quarter shall count. The coach has in good faith tried to comply with the rule. Any school who does not comply by the rule, it is requested the opponent notify their Athletic Director and give copies of scorebook – the Athletic Director is asked to notify the PAA Board of Directors. Appropriate sanctions will be applied to the offending school.

- 18) Please note that this is NOT a rule the referees are to enforce. The scorekeeper (please use

adults as requested) should notify the head coach if an “illegal” substitution is being attempted. Should the coach continue with the substitution and/or not IMMEDIATELY correct it, that game is subject to protest/forfeiture and sanctions taken against offending school and coach.

PAA CHARLIE BROWN/LUCY LEAGUE BASKETBALL RULES

- 1) Athletic Directors have agreed to use the CBLL Subbing Pattern. All players present at the beginning of the game are assigned a number based on the number of players in attendance. Coaches are to complete the Pattern Sheet prior to the game and place copy of the scorer's table. Substitutions are only allowed for: Injury, Fouling out of game or at the player request
- 2) **Objectives:**
 - a) To teach basic basketball fundamentals in a recreational environment (stress the skills of dribbling, passing, rebounding & shooting).
 - b) To teach the basic offenses and defenses (man to man, zones).
 - c) To teach players the positions (point guard, wing, high post, low post) and to present it in such a way that all participants understand.
 - d) To teach team concepts (get away from the one-man shows, spend time teaching the players that is about "us" and not "me").
- 3) **Rules**
 - a) All divisions will play four (4) quarters (6 minutes in length) with the clock stopping on dead balls and at the 3 minute mark each quarter. The break at the 3 minute mark of each quarter is for player substitution according to the CBLL Subbing Pattern. Player transition/subs should be made as quickly as possible – should unnecessary delays occur, the official may issue a time-out after a warning has been given.
 - b) Free throws for fouls will be shot during the game with the clock stopped. Free throws will be awarded for fouls where shots are made (one free throw), shooting fouls (two shots) and bonus situations (one and one). Teams will enter the bonus situation for team fouls 7 – 9 and upon reaching 10 fouls – 2 free throws will be awarded. Bonus situations are each half.
 - c) One time out per half will be allowed. Time outs not used do not carry over to the next half.
 - d) All field goals count 2 points. No 3 point field goals will be awarded.
 - e) A coin toss will decide who takes the ball out to start the game. Possession arrows will determine possessions for the remainder of the game.
 - f) The head coach will be allowed to stand in the coaching box unless the official deems it necessary that he/she be restricted to the bench.
 - g) One team is to provide a volunteer scorekeeper while the other team should provide a volunteer to run the clock.
 - h) Press Rule:
 - No full-court pressing is allowed in any division at any time.
 - For 3rd/4th grade divisions: During the game, half-court pressing is allowed by teams with a 0 – 14-point lead. Teams with a 15 point or greater lead will be required to play defense within the 3 pt. circle (if no 3 pt. circle exists, defense will be required to stay within the free throw lane).
 - For 1st/2nd grade divisions: During the game, full or half court pressing is not allowed at any time. Teams with a 15 point or greater lead will be required to play defense within the 3 pt. circle (if no 3 pt. circle exists, defense will be required to stay within the free throw lane). At the discretion of the official, if deemed unsportsman-like after the first warning, a 1-shot penalty may be assessed against the pressing team.
 - i) Referees used must be registered with an approved officials association – either as active

or inactive. Approved associations are TSSAA, MPSA or Metro Officials Association. If a referee holds membership in a different association – referee should contact league office with pertinent information regarding the association. That information will be reviewed by Board of Control and the association can possibly be added to the list of approved associations.

- j) Consistent refereeing should occur. Referees will be instructed to let the players learn within reason and to call the game according to the level of play. As a general rule, fouls & violations will be called by referees especially when one team gains an advantage over the other. It should be understood by all that the children are just learning the game so every violation will not and cannot be called. Every effort will be made to call violations that give one team an advantage over the other.
- k) All referees will be paid the same amount per game – amount will be set by league office. Referees should complete a voucher pay sheet - athletic directors should fax these completed forms to the PAA office by NOON OF THE NEXT SCHOOL DAY following weekend play. (Fax to 901-373-1223). Failure of a host site to submit vouchers by Monday at noon will result in a \$25 fine per game on the second occurrence.
- l) If the game ends in a tie, one – 3-minute overtime period can be played. Each coach would receive one time-out to use during the overtime period. Should the overtime period end in a tie, there are no additional overtime periods. The game just ends in a tie. Because all players should have received their 2 quarters of play, this period will not count towards the 2-quarter rule.

4) Uniforms

- a) Uniforms should be kept very basic (t-shirt or singlet).
- b) Uniforms should have a legal basketball number on the front and back (1-5, 10-15, 20-25, 30-35, 40-45, and 50-55). Teams should make every effort to make sure 2 players do not have the same jersey number – we will not penalize (by a technical foul) for having an illegal number since some schools use the same jerseys for multiple sports.
- c) Every school should make an effort to have players in matching color shorts. P.E. shorts are acceptable in this league – once again – we will not penalize for having non-matching shorts.
- d) Home schools should have some sort of singlets/pennies available in case both schools are wearing same jersey color.

5) First & second grade boys & girls

- a) Ball used is 27 inches – Junior Size ball. Goal is 8 ½ feet.
- b) Free throw line should be marked at 10 feet.
- c) Each player will be allowed one free throw and one lay-up at halftime. Scoring one point for each shot made and the points being added to the game score. It is the responsibility of the coach to keep track of the points and report to the scorer's table before the 3rd quarter begins.

6) Third & fourth grade boys & girls

- a) Ball used is 28.5 inches (girls high school basketball). Goal is 8 ½ feet.
- b) Free throw line should be marked at 12 feet.
- c) Free throws and lay-ups made during half-time will not be counted toward your game score. Teams can shoot or rest during half-time.

7) Summary

- a) One of the purposes of this league is to introduce grades 1 -4 to the game of basketball –

- players should be taught the basics.
- b) All players should be given an equal chance at playing time – coaches are to use the CBLL Subbing Pattern.
 - c) All players, coaches, parents & fans should have fun and appreciate the value of the league.
 - d) Keep controversies to a minimum – athletic director for each site should be on site or have someone designated as a game administrator to handle any problem that should arise.
 - e) Games shall not be forfeited if an opposing team does not have the minimum number of players required to start a game. The opposing team may elect to provide extra players to serve temporarily as members of the short-handed team. If additional players arrive after the start of the game the temporary members may return to their original team. It is in the best interest to allow all players equal play time per By-Laws Article VII, Section 34.
- 8) Gym floors should be kept clean at all times and each playing site is responsible for having backboard and walls/stages properly padded. All sites should refer to the current NFHS Basketball Rules book for the proper requirements for padding, spacing between playing floor and bleachers, etc. Any questions should be addressed through the site Principal/Pastor, Safety Coordinator and Diocesan Director of Risk Management.
- 9) Concussions**
- b) Any player who exhibits signs, symptoms or behaviors consistent with a concussion such as loss of consciousness, headache, dizziness, confusion or balance problems, shall be immediately removed from the game and shall not return to play until they have been evaluated by a licensed medical professional and received written clearance to return to sporting activities.
 - c) Any coach or parent insisting on returning the player to the game without approved clearance will result in the referee ending the game immediately.

GUIDELINES ON HANDLING PRACTICES AND CONTESTS DURING LIGHTNING OR THUNDER DISTURBANCES

These guidelines provide a default policy to those responsible or sharing duties for making decisions concerning the suspension and restarting of practices and contests based on the presence of lightning or thunder. Member organizations hosting outdoor events should assign staff to monitor local weather conditions before and during practices and contests.

Member organizations should develop an evacuation plan, including identification of appropriate nearby safer areas and determine the amount of time needed to get everyone to a designated safer area such as a school, gymnasium, or library. An alternate safer place from the threat of lightning is a fully enclosed (not convertible or soft top) metal car or school bus.

Criteria for suspension and resumption of play:

1. When thunder is heard, or lightning is seen, the leading edge of the thunderstorm is close enough to strike your location with lightning. Suspend play for at least 30 minutes and vacate the outdoor activity to a safer location immediately.

2. 30-minute rule. Once play has been suspended, wait at least 30 minutes after the last thunder is heard or lightning is witnessed prior to resuming play.
3. Any subsequent thunder or lightning after the beginning of the 30-minute count will reset the clock and another 30-minute count should begin.
4. When lightning-detection devices or mobile phone apps are available, this technology could be used to assist in deciding to suspend play if a lightning strike is noted to be within 10 miles of the event location. However, you should never depend on the reliability of these devices and, thus, hearing thunder or seeing lightning should always take precedence over information from a mobile app or lightning-detection device.
 - *At night, under certain atmospheric conditions, lightning flashes may be seen from distant storms. In these cases, it may be safe to continue an event. If no thunder can be heard and the flashes are low on the horizon, the storm may not pose a threat. Independently verified lightning detection information would help eliminate any uncertainty.*
